

Private Client & Trust Law

“Our team is enormously experienced in protecting the wealth of investors and entrepreneurs – both local and international. Many clients choose to acquire Gibraltar residence and thereby benefit from our very favourable tax system. We can advise on everything from securing resident status, transferring assets, taxes, permits, property, re-domiciling corporate vehicles to setting up trusts.

While we naturally focus on Gibraltar’s competitive legal and fiscal system, our expertise is much more wide-ranging. We are therefore able to create bespoke structures for private clients setting up trusts and companies in other jurisdictions as well as those in Gibraltar, if required.”

Trusts

We often advise clients on the best ways to manage and pass on their wealth.

Many of our clients choose Gibraltar as a residential base benefiting from a competitive tax regime and English common law. It is also an ideal trust location.

Gibraltar is an excellent jurisdiction for the establishment of trusts. Hassans’ fiduciary services are operated through Line Trust Corporation Limited who execute all the duties of a professional, licensed and regulated trustee.

Trusts established in Gibraltar enjoy tax-free status provided they are set up by non-residents exclusively for the benefit of non-residents or people with High Net Worth Status.

Hassans Sotogrande S.L.

Our Spanish lawyers advise on Spanish property, income, capital gains, wealth and inheritance taxes for those clients planning to take up residence, invest or carry on business in Spain.

We advise on Spanish residency including advice on transferring assets and minimising tax liabilities, as well as related matters such as identifying suitable property to acquire or occupy, work permits, residency permits, family relocation and the importation of motor vehicles.

They also advise on Spanish wills.

For the largest and most complex cross-border advice, we also have an advisory network in Spain.

Structuring and management of portfolios

Our tax advice spans investments of all types. We have considerable experience in creating and managing large and complex structures for portfolios and transactions with values running into billions.

In the case of private clients, we are particularly qualified to provide efficient tax and structuring advice tailored to the needs of our clients – bearing in mind their domicile and residence.

When advising clients, we take a practical view and ensure that the corporate, fund and trust structures are always effective and viable.

Residency etc

As part of tax planning, we are able to advise and assist with tax residency and domicile issues.

Tax

Our tax team offers individual expertise to private clients. We have also played a role in modernising Gibraltar’s tax laws, ensuring a wide range of tax planning opportunities.
